

After Hours Access to Campus Buildings Policy

Policy Title:	After Hours Access to Campus Buildings
Issued By:	Department of Safety & Security Services
Responsible Office:	Campus Services
Responsible Officer:	Vice President, Campus Services
Effective:	August 27, 2009
Last Revised:	September 2017; July 2022
Next Scheduled Review:	September 2020; July 2025

Policy Statement:	No person shall enter or remain in any University owned or leased building when the University is closed. Exceptions are permitted only in the case of an emergency or if access to University buildings has been scheduled in advance, provided the appropriate notifications have been made as outlined in the guidelines below.
Purpose:	This policy provides guidance regarding the practices related to building access on campus during times when Franklin University is closed. This policy is intended to assist with the reasonable safety and security of all persons entering campus buildings to engage in University business after regular business hours.
Scope:	This policy applies to all persons affiliated with the University, including outside vendors and contractors.
Definitions:	<p>Employee – Any faculty or staff member conducting official business on behalf of the University</p> <p>Student – A person formally enrolled in a course of study at Franklin University</p> <p>Emergency After Hours:</p> <ul style="list-style-type: none">• Work that is unplanned and necessitated by an unforeseen set of circumstances that require access to the infrastructure or facility and immediate response by the University.• An employee’s personal health and welfare issue that requires the individual to enter a campus building when the University is closed. (e.g., medication left in office, personal items needed immediately, etc.)

After Hours Access to Campus Buildings Policy

Scheduled work after hours of when the University is closed – Due to the nature of duties being completed, the employee must work during hours the business unit would not normally be operational or staffed and/or the work can only be completed when the University is closed. The work is planned for and scheduled in advance in order for the University to address the safety and security of those employees working.

Holiday – Any officially recognized day the University has decided to close. Typical holidays are Christmas Eve, Christmas Day, New Year’s Day, Thanksgiving Day, Independence Day, Labor Day, Memorial Day, and Martin Luther King Jr. Day.

University Closed – The period of time when no security officer is scheduled on campus, including all University recognized holidays, times the University is closed as outlined on the campus and buildings schedules and during periods of inclement weather or other regional emergencies where University officials may modify normally scheduled hours.

Building Access After Normal Building Hours – The period of time when a building or business unit is not normally operational but a campus security officer is scheduled on campus.

Policy Details:

Employee Access to University Property

University hours of operation have been established to meet and fulfill the mission of the University. Building hours are posted on the University’s website. Hours vary by location and building to meet the needs of the University. To ensure the safety and security of its employees, the University is committed to providing appropriate security measures during its normal hours of business.

Any employee who desires to access University property during normal hours of operation, but in hours when the building or business unit is not normally operational, (typically an area that is locked or vacant during normal University hours during the weekend), must notify the on-duty security officer who will ensure the alarm system is disarmed and provide verbal confirmation that it is safe to enter the building.

An employee who is already on campus and desires to work after University hours must notify the on-duty security officer to coordinate the intended time of departure. Under no circumstances should an employee work beyond the security officer’s scheduled hours.

No person shall enter any building when the University is officially closed. This includes all holidays and scheduled break periods. Exceptions are permitted only in the case of an emergency and require notification to the Director of Safety & Security in advance of entry unless the employee has appropriate

After Hours Access to Campus Buildings Policy

information to disarm and rearm the alarm system for the building being entered.

- Administrative approval from the employee's supervisor must be obtained prior to entry. The employee must notify the supervisor when he or she enter the building and leaves the building if the circumstances are not consistent with the scheduling section of this policy.

Scheduling Work After Hours

All employees scheduling work during a period when the building is scheduled to be closed must first receive approval from their supervisor. The Department of Safety & Security must be notified in advance (minimum of 48 hours) of the scheduled work hours, including:

- Date
- Beginning and end times
- Building(s) accessed
- Employees working

When possible, a security officer will be scheduled to work during this pre-determined period of time. At a minimum, the local police department precinct will be made aware of the employees being on campus. The Director of Safety & Security or a designee will be responsible for initiating this notification. If a security officer cannot be scheduled, a minimum of two employees must be assigned to complete the work required.

Unscheduled Work After Hours (Emergency Purposes)

Unscheduled work after hours should be avoided unless it is determined that the emergency incident must be resolved immediately. All employees working during this time period must first receive approval from their department supervisor. As there will be no security present on campus, a minimum of two employees must be assigned to complete the work required. At least one of the employees must have appropriate information to disarm and rearm the alarm system for the building being entered. The employee must notify their supervisor upon entering and leaving the building.

In order to assure the safety of anyone coming on campus, it is necessary for the employee to notify the local police department of his or her presence on campus through the agency's non-emergency phone number. The employee will provide the following information when contacting the police department:

- Name of employee
- Name of building they will be in
- Approximate time in building
- Phone number they can be reached while on campus

Best efforts will always be made to have a second staff member present, however, in cases of immediate need to technical emergency, and a second

After Hours Access to Campus Buildings Policy

staff member cannot be present, one employee will be permitted to enter the building.

In these cases, the employee must have appropriate information to disarm and rearm the alarm system for the building being entered and the employee must notify their supervisor and/or department director upon entering and leaving the building.
