

**Master of Education in Educational Leadership, Principal Licensure Focus Area  
Professional Licensure Information**

**Professional Licensure Programs**

A professional license is typically regulated by state laws and is required for graduates of these programs to practice, to use the professional designation in their title, and/or to gain employment in certain occupations.

Franklin University’s Master of Education in Educational Leadership program (M.Ed.), Principal Licensure Focus Area is designed to prepare students for a career as a licensed principal in Ohio in the grade bands PK-6, 4-9, or 5-12.

**State Licensure**

Franklin’s principal licensure program is approved by the Ohio Department of Higher Education. This focus area in the Master of Education in Educational Leadership program is currently only open for enrollment to students who are located in Ohio, and students enrolled in the focus area must complete their field/internship experiences within the state of Ohio.

Franklin University has not determined if its principal licensure focus area meets the educational requirements for graduates to be eligible to apply for principal licensure in other states or U.S. territories. Educational requirements for principal licensure can include specifications for the applicant’s type of academic degree, type of educational institution where the academic program was completed, and curriculum content within the academic program.

Requirements for principal licensure vary by state and may involve more than successful degree completion. Graduates who apply for a license may need to satisfy other requirements, such as holding an active teaching license in the state, passing an examination, completing an application, or submitting to a background check. Some states may offer multiple pathways to principal licensure, including recognizing a license earned in another state.

Requirements for licensure are subject to change at any time. Anyone who is interested in seeking licensure as a principal is encouraged to visit the state and U.S. territory websites listed in the chart below to review the current requirements to obtain licensure. *Note: If links are not provided, a website for the regulatory agency in that location is currently unavailable.*
